## TIDES CAUSED BY GRAVITATIONAL FORCE OF THE MOON

## *Biblical Worldview*

### *As it Relates to Science*

Modern science was developed on principles directly derived from Christian theology.

Can we trust the conclusions of all those men and women in white lab coats?

We will examine 3 examples of how a Biblical Worldview has affected the study of:

1) Geomorphology, 2) Fossilization, and 3) Genetics

Evolutionary scenarios will be weighed against solid Biblical exposition

**WHICH CAME FIRST  
THE CHICKEN  
or  
THE EGG?**

Which came first, the chicken or the egg?  
This question we must pose.  
The answer rests upon God's Word  
And what the evidence shows.

Evolution says it was the egg:  
Pure chance brought us the bird.  
The Bible says God made the birds  
In Genesis 1 of His Word.

These views we know, can't both be true.  
No matter what men say,  
So we must lay out all the facts,  
And let them point the way.

If we look closely at what is found  
In fossils, stars, and cells,  
They point out there's a Mastermind:  
And He designed them well.

Of course, mankind just laughs at this,  
They won't admit it's true.  
They know that if there is a God,  
Accounts to him are due.

As Christians, here's where we can't fail,  
to know God's world and Word.  
Our reasons for belief in Him  
By no means are absurd.

The Bible says to seek out truth;  
Foundations must be strong,  
So, when men say they have the facts,  
We'll know what's right from wrong

Let's read God's Word, apply our minds,  
And seek Him with all our heart.  
God said He'd teach us wondrous things  
And truth to us to impart.

So, when we're asked to clarify  
That eggs weren't first and why,  
We'll know God's script, point to the facts,  
And have a sound reply.

If we can spur man to rethink  
His views on evolution,  
Perhaps he'll see the facts show God  
As the correct solution.
